Datasets Log

This information is used to keep an audit trail of the datasets you are sending to the Turing Institute. This information is stored in the Turing Data Safe Haven web app. No actual data will be stored here, just the descriptions you give us below.

It is your decision whether we should consider the data you will provide as one dataset, or as multiple. If multiple, please document each dataset that will be sent to the Turing. If the name of the data provider representative is different to the name already provided, we will require them to complete the sensitivity assessment of the project too.

Name of Project:

[ ]

Name of dataset 1:

[ ]

Description (2- 3 sentences)

[ ]

Name of data provider representative:

[ ]

Name of dataset 2:

[ ]

Description (2- 3 sentences)

[ ]

Is the name of data provider representative the same as for dataset 1?

Yes ☐

If no, please provide contact details:

Name: [ ]

Email: [ ]

Mobile phone number: [ ]

Name of dataset _____:

Description (2- 3 sentences)

Is the name of data provider representative the same as for dataset 1?

Yes ☐

If no, please provide contact details:
